

MUHAMMAD HASAN

Full-Stack JavaScript Developer | Founder & CEO, Tech Orbit Hub
Payyannur, Kerala, India | +91 94968 29330 | zerox9861@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFILE

Full-stack JavaScript developer who has shipped 10+ production websites for real clients, including a school's official portal, an e-commerce platform for an Abu Dhabi tech store and an architecture firm's website. Builds with React, Next.js, Node.js, Express and MongoDB, with a focus on responsive, accessible and animated interfaces. Founder and CEO of Tech Orbit Hub, a worldwide developer community, and a VETLoop Rewards frontend development intern.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend: React, Next.js (App Router), Tailwind CSS, shadcn/ui, responsive and accessible UI

Backend: Node.js, Express.js, REST APIs, JWT authentication, role-based access control (RBAC)

Data & Tools: MongoDB, Firebase, Git, GitHub, Postman, Vercel, CI/CD

Workflow: Debugging, testing, code review, AI-assisted development

EXPERIENCE

Frontend Development Intern | VETLoop Rewards

Aug 2026 – Sep 2026

- Built interactive "Upcoming Features" cards in React with responsive layouts, motion and accessible states.
- Redesigned the Exchange Center for Gems-to-VEs conversion, covering balances, confirmation, success and error states, conversion history and responsive layouts.
- Turned reviewer feedback into shipped iterations, documented all work, and delivered public GitHub and Vercel submissions; received a letter of recommendation from the Founder & CEO.

Freelance Full-Stack Developer | Self-employed

Present

- Delivered 10+ websites for paying clients across education, retail and architecture, handling design, development, deployment and post-launch fixes.

LEADERSHIP

Founder & CEO | Tech Orbit Hub

Present

- Founded and lead a worldwide community of students, developers, AI enthusiasts, designers and robotics builders who collaborate on real technology projects across four groups.

SELECTED PROJECTS

TISK EMS | School Web Portal & Admin System | tiskems.edu.in

- Built the official website of TISK English Medium School, a CBSE-affiliated school, with an admin dashboard for content, announcements, resources and institutional updates.
- Developed Node.js/Express REST APIs and MongoDB models with role-based auth and secure admin login.

Leens | E-Commerce & Inventory Management | leens.online

- Built a storefront and merchant portal for an Abu Dhabi tech store, covering inventory, pricing, order processing and catalog management.
- Implemented Node.js/Express APIs with MongoDB-backed CRUD and user session workflows.

Meridian Arch Studio | Architecture Firm Website | meridianarchstudio.com

- Designed and built a responsive React and Node.js website for a Kerala architecture and interiors firm, presenting its projects, services and 3D visualisation work.

CoreUI Kit | Open-Source React + Tailwind UI Registry | core-ui-kit-v2-3.vercel.app

2026

- Built a registry of 38 reusable components across 8 categories, with versioned registry endpoints and a CLI for installing components.
- Added docs, automated accessibility and behavior tests, CI checks, design tokens and copy/install workflows.

EDUCATION & TRAINING

TISK English Medium School | Secondary education

Present

MERN Stack Web Development Bootcamp | Brotype

Kerala

Hands-on training in MERN architecture, data structures and algorithms, modular code and real-world project delivery.

CERTIFICATIONS

Brotype Certified MERN Stack Web Developer | Frontend Development Internship Completion, VETLoop Rewards (Sep 2026)
